1. The following is an examiner's statement of reasons for allowance:

Applicant's arguments, see Brief on Appeal, filed October 31, 2005, have been fully considered and are persuasive. It is agreed that the cited references do not teach or suggest the claimed limitations: "computing at the core logic chip a difference frame from current video frame and a previous video frame as the current video frame streams into the dedicated video input of the core logic chip, the previous video frame being received at the core logic chip as a previous current video frame and retained therein, the difference frame including computing the difference frame in the core logic chip within the computer system, wherein the core logic chip is a north bridge chip" as recited in the independent claims 1 and 13.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
